RECOMMENDED PRODUCT CARE FOR CLEARPRO:

For optimal performance of ClearPro products, it is recommended that care consistent with the vehicle manufacturer's specifications for the exterior surfaces be followed:

- ✓ To preserve the warranty coverage and prolong the life of your ClearPro product, do not wash your vehicle for at least three days after installation.
- ✓ Following this healing period, regular hand-washing is advised. Hand-wash with soap, water, and premium microfiber towels and cloths. To prevent lifting, avoid automatic car washes and spray the film edges with a high pressure nozzle hose or a power washer.
